Main question: Is the [Crazy System](#) as Crazy as we thought?.

Also...

1. The results of the Crazy system overall.
2. The Month by month results.
5. Final Word

Welcome

I first introduced Crazy to you the 17/06/2013.

(Day by Day results [here](#))

Since then the system (from the 18/06/2013 onwards missing the 100 winner of the 17th) has returned 31.932 points profit at a ROI of 15.21% at Betfair BSP (After 5% commission. SP would probably be lower).

For a free system I think that is pretty good and this makes me as the question...

"Is the Crazy System as Crazy as we thought"

One of the reasons I called it Crazy in the first place was because of the 100 priced winner on the 17th.

But since then it has been pretty consistent.

So lets have a look at the system overall.

Total Selections Found: 607	Wins: 85	Losers: 522	P/L: 344.59	Strike: 14 %	ROI: 56.77 %
Graph	LwR: 2	LLR: 29	AWO: 10.72	LWO: 1.62	<input type="checkbox"/> Yesterday Only <input type="checkbox"/>

As you can see it really is showing a pretty amazing profit and a ROI that is just mad at 56.77, but a lot of that is because of some high priced winners.

Here is the Graph

Now let us have a look at how the Crazy System performed just in just July.

Total Selections Found: 148	Wins: 15	Losers: 133	P/L 33.155	Strike: 10.14 %	ROI: 22.4 %
Graph	LWR: 2	LLR: 19	AWO: 11.67	LWD: 1.62	<input type="checkbox"/> Yesterday Only <input type="checkbox"/>

The Average winning Odds were even higher at 11.67 which I am quite surprised about and if you read my [System 5 report](#) you will know why.

ROI isn't as high but at 22.4 % this is still an amazing return on your investment.

Here is the graph.

I love seeing trend lines moving up like (The dotted line in the middle) which shows the system is going in the right direction.

Month By Month...

April

Total Selections Found: 104	Wins: 19	Losers: 85	P/L 24.943	Strike: 18.27 %	ROI: 23.98 %
Graph	LWR: 2	LLR: 18	AWO: 6.05	LWD: 1.72	<input type="checkbox"/> Yesterday Only <input type="checkbox"/>

May

Total Selections Found: 139	Wins: 29	Losers: 170	P/L 47.93	Strike: 14.57 %	ROI: 24.09 %
Graph	LWR: 2	LLR: 23	AWO: 7.9	LWD: 2.01	<input type="checkbox"/> Yesterday Only <input type="checkbox"/>

June

Total Selections Found: 147	Wins: 22	Losers: 125	P/L 247.56	Strike: 14.97 %	ROI: 168.41 %
Graph	LWR: 2	LLR: 29	AWO: 17.82	LWD: 1.68	<input type="checkbox"/> Yesterday Only <input type="checkbox"/>

July

Total Selections Found: 148	Wins: 15	Losers: 133	P/L 33.155	Strike: 10.14 %	ROI: 22.4 %
Graph	LWR: 2	LLR: 19	AWO: 11.67	LWD: 1.62	<input type="checkbox"/> Yesterday Only <input type="checkbox"/>

It is quite interesting to see that (apart from June which was crazy) the other 3 months were pretty similar.

July's strike rate dropped but the average winning price went up but p/l wise (again apart from June) they are quite similar.

Final Thoughts...

I suppose the strike rate in July would worry me the most about the Crazy system.

This is the one thing pointing to July being different to the other months and had the AWO been closer to the norm of around 7 or 8 then the system would not have been profitable.

August is going to be an interesting month and will certainly give us further confirmation on how this system performs.

I suppose with the [SPB System Builder](#) I could improve the system by being more specific about the selections but it is more interesting to watch the system as it is.

“Is the Crazy system as crazy as we first though?”

June was the month that made the system look really crazy and we learned today that overall the system is probably a bit more steady than it looked from that one month.

Still I wouldn't mind another month like that 😊

The system will continue to be free for the time being so I hope you find the selections useful although I generally find people don't attach much value to things that are given away free.

Thank you as always for reading I really do appreciate it.

Malcolm

P.S. You will find more systems like this inside the member's area of [Grey Horse Bot](#).

This report is for information only. In no way we are advising you to act on the report or to bet on live markets. Please seek proper advice if you are unsure what to do.

Our results and reports are based on betting through Bots on the Betfair market around 60 seconds before the off.

Because our prices are based on what we have achieved on the market and not SP or BSP we can only show what happened to us.

Unmatched bets, prices out of range and other factors may influence your results compared to ours so we can in no way guarantee that you will achieve similar results.

In fact your results could be worse.

Please see Betfair's information on how they match bets.

Matched bets can be influenced by timing, stake amounts and other factors.

Online or off line betting is not appropriate for everyone.

There is a substantial risk of loss associated with betting. Losses can and will occur.

No system or methodology has ever been developed that can guarantee profits or ensure freedom from losses.

No representation or implication is being made that using the information on this report/article will generate profits or ensure freedom from losses.

Hypothetical performance results have many inherent limitations, some of which are described below.

No representation is being made that any account will or is likely to achieve profits or losses similar to those shown.

In fact, there are frequently sharp differences between hypothetical performance results and the actual results subsequently achieved by any particular betting program.

One of the limitations of hypothetical performance results is that they are generally prepared with the benefit of hindsight.

In addition, hypothetical betting does not involve financial risk, and no hypothetical betting record can completely account for the impact of financial risk in actual betting.

For example, the ability to withstand losses or to adhere to a particular betting program in spite of betting losses are material points which can also adversely affect betting results.

There are numerous other factors related to the markets in general or to the implementation of any specific betting program which cannot be fully accounted for in the preparation of hypothetical performance results and all of which can adversely affect actual betting results.

HYPOTHETICAL OR SIMULATED PERFORMANCE RESULTS HAVE CERTAIN LIMITATIONS.

UNLIKE AN ACTUAL PERFORMANCE RECORD, SIMULATED RESULTS DO NOT REPRESENT ACTUAL BETTING.

ALSO, SINCE THE BETS HAVE NOT BEEN EXECUTED, THE RESULTS MAY HAVE UNDER-OR-OVER COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY.

SIMULATED BETTING PROGRAMS IN GENERAL ARE ALSO SUBJECT TO THE FACT THAT THEY ARE DESIGNED WITH THE BENEFIT OF HINDSIGHT.

NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFIT OR LOSSES SIMILAR TO THOSE SHOWN.
